

RAJAT SHARMA

rajat.sharma.myid1@gmail.com | +91 9810895404 | Kanpur, UP | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFILE SUMMARY

Final-year B.Tech Computer Science student at Kanpur Institute of Technology (AKTU) focused on full-stack development and AI integration. Skilled in React, Next.js, Node.js, Python, and C++. I enjoy building agentic AI systems, complex backend architectures, and solving DSA challenges.

TECHNICAL SKILLS

Languages: C++, Python, TypeScript, JavaScript, SQL
Frontend: React 19, Next.js 15/16, Tailwind CSS 4
Backend & DB: Node.js, Express.js 5, Flask, Prisma, PostgreSQL
AI / ML: Gemini API, Ollama, LLM integration, Openclaw, Claude
Tools: Git, Antigravity, Google OAuth, Docker

EDUCATION

B.Tech in Computer Science
2023 to 2027 (Pursuing)
Kanpur Institute of Technology
AKTU, Lucknow | CGPA: 7.2

PROJECTS

Fitness Progression Tracker | Full-Stack AI Web App

Stack: Next.js 15, React 19, TypeScript, Express.js, Prisma, PostgreSQL, Gemini API, Google OAuth

- Built a gamified strength-training app with a skill-tree UI (ReactFlow DAG), PR logging, and Epley 1RM calculation for progression tracking.
- Integrated Gemini AI coaching for personalised workout recommendations and Google OAuth authentication; deployed end-to-end independently.

DSA Tracker | Full-Stack Learning Platform

Stack: Next.js 16, React 19, Tailwind CSS 4, Express 5, Prisma, PostgreSQL, TypeScript, NextAuth, Monaco Editor, ReactFlow

- Built a DSA learning platform with roadmap tracking, Monaco problem workspace, theory-first Learn section, and spaced-repetition review flow.
- Added AI hint/review/trace endpoints and a browser extension for LeetCode sync with direct submission results (verdict, runtime, memory).
- Monorepo architecture: Next.js frontend, Express 5 backend, Prisma on PostgreSQL, Docker Compose for local DB, and a 20-module DSA bootcamp.

Autonomous Job-Hunting Agent

Stack: Qwen (via Ollama), Playwright, Selenium, Python

- Built a browser-automation agent for job applications across Internshala, LinkedIn, Unstop, and Naukri with LLM-driven form filling and CAPTCHA handling.

AI Salary Predictor

Stack: Flask, scikit-learn, Matplotlib, Jinja2

- Server-side salary prediction using Linear Regression with Matplotlib chart rendering and a dark-themed UI, no client-side JavaScript.

DSA, COMPETITIVE PROGRAMMING & CERTIFICATIONS

- Regular C++ DSA practice covering binary trees, Kadane's, trapping rainwater, 3Sum, Dutch National Flag, and sliding window patterns.
- Completed a 45-day industrial DSA training by RCPL focused on interview problem-solving patterns.
- Completed 7 Infosys Springboard courses covering CS and development fundamentals. Participated in Chandigarh University hackathon.
